Please read below for more information.

West Virginia OrthoNeuro is excited to announce the consolidation of our physical therapy services that are currently offered at both our Ortho and Neuro/Spine Locations. Neuro/Spine Location Physical Therapist, Stephen Summers, will be relocating at the end of April 2019. Mr. Summer's will be joining the current Physical Therapy Department at our Ortho Location located at **Northgate Business Park 100 Tracy Way Charleston, WV 25311.**

Steve has been with our Neuro/Spine location and specializing in spine patients since 2011. Please be aware that he will continue to provide the same quality care he has shown our community and patients over the years. However, the consolidation of our physical therapy departments will allow Steve to enhance the services he already provides to our patients as well as expand his scope of practice and receive outside referrals from **all** physicians who order patients to have physical therapy. Meaning Steve will be able to continue to provide excellent spine related physical therapy services as well as accept patients who need physical therapy services that are not related to the spine (e.g. physical therapy services for a patient's knee, shoulder, elbow, wrist, etc.). This is an extraordinary benefit to our practice, our patients and the community. We hope you are looking forward to this transition as much as we are and we are thrilled we can continue caring for all your physical therapy needs.

As a valued patient of WV OrthoNeuro, we thank you for taking time to read this exciting news and ask that you please update your records to reflect this change.

Please feel free to call either location if you have any questions or concerns. Contact and Office information for both locations can be found at the bottom of this page.
